## Front-End Developer - French / English (C2)

Recently graduated with a Bachelor in Web & Mobile Design, I am passionate about Front-End and Back-End development. Fluent in both French and English, I am at ease with JavaScript, PHP, MySQL. A motivated and quick learner, I wish to apply and grow my skills in an inspiring and collaborative team of professionals.

## Education

**2019** - Graduated from Haute Ecole Albert Jacquard in Web and Mobile Design magna cum laude [Grande Distinction avec prix du jury en français]

## Skills

HTML / CSS

React

JavaScript

Git

PHP & MySQL

Bootstrap 3/4

## Experience

**2020 - Developed React web app** — React project that allows you to make a grocery list manually or make it quickly with a list of pre-entered products

**2019 - Developed 2D game using Phaser JS** — Final Student Project

**2018/2019 - Improved back-end of the website Eté Mosan with PHP and MySQL** — Internship at Dreammachine

**2018 - Developed book managing web app using JavaScript** — Second year final project

**2018 - Developed small web app in JavaScript** — Group project

**2018- Design and development** of a website for the translation and summary of the conference « A Brief History of Web Design » - Student Project

**2017 - Redesigning a Youtube functionality in terms of UX design** — Group project

## Languages

French - Native Language

English - C2
